

# Digital Risk Awareness and Mitigation

## Course Introduction

This course is designed to help you gain a better understanding of the current digital risk environment, how to improve your own personal digital operations security, and how to overcome bad habits and stay proactively engaged in digital risk thinking.

In this course, we will:

- Describe the current digital risk environment
- Explore how to mitigate digital risk, and
- As an individual, learn how to proactively practice digital risk awareness

Through observation, insight, and best practices, this course will equip you for living and working digitally and vigilantly at the speed of politics in the upcoming election cycle.

It is not possible to protect against all digital risk, nor to eliminate it entirely, but by following these steps, you stack the odds in your favor and significantly reduce the digital risks to you and your organization.
